

TRI invites you to visit us at SMTA International Electronics Exhibition 2014! Held in Donald E. Stephens Convention Center in **Rosemont, IL** between **September 30<sup>th</sup>** and **October 1<sup>st</sup>** 2014, TRI's exhibit will feature the hottest innovations of its award-winning PCBA inspection and testing solutions.

Visit us at booth **213** for a personal demo of our latest 3D SPI, AOI, AXI and ICT solutions for PCBA manufacturers and learn how TRI solutions help reduce the cost of production quality.

Come to the TRI booth, scan our QR code and save the contact to *receive a free gift on site!!*

### TR7500 SIII 3D AOI

- Total Coverage 2D + 3D AOI
- 5 High Resolution Color Cameras
- Leading 3D Inspection Speed
- Automated Easy Programming
- High Performance Design for Automotive and HDI
- 03015mm to 20 mm 3D range

### TR5001T SII TINY ICT

- Parallel Testing TINY ICT
- Best Cost-Cutting Solution
- Boundary Scan Test
- Serial Device Programming
- Built-In THD Audio Analysis
- Advanced Programmable DUT Power Supplies for Testing

### TR7007 SII Plus 3D SPI

- 2014 EM Asia Award Winner
- Market Leading Inspection Speed and Precision
- Up to 200 cm<sup>2</sup>/sec at 15 μm
- Advanced 360° SPC Toolkit
- Closed Loop Integration

### TR7600 SII 3D AXI

- High-speed Inline 3D X-ray
- BGA, PoP, Press-fit, PTH, QFN
- Easy Automated CAD/Manual programming
- Multiple resolution programs
- Server, Communications and Mobile specialist solution
- 3-layer PoP inspection capable

Join **SMTA Tech Tour #1** or **#3** during the exhibition to discover how PCBA inspection and testing helps improve production yields and lower the cost of quality.

**Tour 1**  
**Tour 3**

**Tuesday, Sep. 30<sup>th</sup>**  
**Wednesday, Oct 1<sup>st</sup>**

**12:30pm**  
**9:30am**
