

TRI Poland 2014 Seminar

PCBA Inspection: Cost Effective Approach to Quality

Dear Clients and Partners,

Join us in the heart of Poland for a free two-day seminar filled with the newest trends in PCBA inspection and testing technologies.

TRI's leading experts will be ready to share the latest product knowledge and innovations designed to reduce quality costs and fully automate PCBA production inspection, monitoring and testing.

See a fully integrated production line at Renex state-of-art demo facility!

Come join us for a **complimentary dinner** and find out how quickly TRI solutions can help you reduce costs and solve your production quality issues.

We look forward to seeing you on September 25-26 in Włocławek!

Seminar Schedule

Registration 10:30-11:00

Lunch & Product Demo 13:00-14:20

Tea Break & Product Demo 15:20-16:00

Product Demo 17:00-17:30
