## Agenda

### [ OPENING ]

TRI-Your Test and Inspection Partner provides the industry's only One Stop Solution for improving PCBA production cost-efficiency and quality.

### [ TR7007Q ]

Revolutionary new stop-and-go 3D SPI featuring four digital shadow-free projectors for upgrading your SMT production quality and efficiency.

### [ TR7500 SIII 3D ] [ TR7700 SII PLUS ]

Powerful 3D inspection solution ready for new generation of micro components (0201 mm, 008004 in). Unique dual mode AOI offers Stop-and-go and dynamic imaging for best inspection efficiency.

**INTRO**

**3D SPI**

**3D AOI  
2D AOI**

**3D CT  
AXI**

**TINY  
ICT**

**ICT**

### [ CT UPGRADE FOR 3D AXI ]

Generation upgrade of TRI's award winning 3D AXI brings planar CT imaging for detailed review of hidden solder joints under BGA, LGA & PoP packages. New software delivers CAD & CAD-free programming in an easy-to-use solution.

### [ TR5001T SII TINY ]

World's most powerful and compact ICT brings extended test coverage, parallel testing and fast programming in an affordable, easy to use ICT solution.

### [ TR5001 ]

High performance, expandable testing solution with MDA and FCT capabilities. Economical solution for increasing productivity and cutting production costs.
