Agenda

[OPENING]

INTRO
TRI—Your Test and Inspection Partner provides the industry's only One Stop Solution for improving PCBA production cost-efficiency and quality.

[TR7007Q]

3D SPI
Revolutionary new stop-and-go 3D SPI featuring four digital shadow-free projectors for upgrading your SMT production quality and efficiency.

[TR7500 SIII 3D] [TR7700 SII PLUS]

**3D AOI
2D AOI**
Powerful 3D inspection solution ready for new generation of micro components (0201 mm, 008004 in). Unique dual mode AOI offers Stop-and-go and dynamic imaging for best inspection efficiency.

3D CT AXI

[CT UPGRADE FOR 3D AXI]

Generation upgrade of TRI's award winning 3D AXI brings planar CT imaging for detailed review of hidden solder joints under BGA, LGA & PoP packages. New software delivers CAD & CAD-free programming in an easy-to-use solution.

TINY ICT

[TR5001T SII TINY]

World's most powerful and compact ICT brings extended test coverage, parallel testing and fast programming in an affordable, easy to use ICT solution.

ICT

[TR5001]

High performance, expandable testing solution with MDA and FCT capabilities. Economical solution for increasing productivity and cutting production costs.
