INDEPENDENT AUDITORS' REVIEW REPORT
SEPTEMBER 30, 2023 AND 2022

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

INDEPENDENT AUDITORS' REVIEW REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Test Research, Inc.

Introduction

We have reviewed the accompanying consolidated balance sheets of Test Research, Inc. and subsidiaries (the "Group") as at September 30, 2023 and 2022, and the related consolidated statements of comprehensive income for the three months and nine months then ended, as well as the consolidated statements of changes in equity and of cash flows for the nine months then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Standard on Review Engagements 2410, "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for qualified conclusion

As explained in Note 4(3), the financial statements of certain insignificant consolidated subsidiaries were not reviewed by independent auditors. Total assets of these subsidiaries amounted to NT\$1,350,060 thousand and NT\$1,636,679 thousand, constituting 16% and 18% of the consolidated total assets as at September 30, 2023 and 2022, respectively, total liabilities amounted to NT\$98,313 thousand and NT\$148,999 thousand, both constituting

7% of the consolidated total liabilities as at September 30, 2023 and 2022, respectively, and the total comprehensive (loss) income amounted to (NT\$2,323) thousand, NT\$16,357 thousand, NT\$4,441 thousand and NT\$124,575 thousand, constituting (1%), 3%, 1% and 8% of the consolidated total comprehensive (loss) income for the three months and nine months then ended, respectively.

Qualified conclusion

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries been reviewed by independent auditors as described in the *Basis for qualified conclusion* section above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at September 30, 2023 and 2022, and of its consolidated financial performance for the three months and nine months then ended and its consolidated cash flows for the nine months then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission.

Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. Cash flow and fair value interest rate risk

The Group has no borrowings; thus, the Group has no cash flow and fair value interest rate risk.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of financial assets stated at amortised cost.
- ii. The Group's credit risk management policy is that for banks and financial institutions, only institutions with good credit rating are accepted. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. In accordance with the internal management policy of the Group, if the contract payments were past due over 120 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. In accordance with the internal management policy of the Group, the default occurs when the contract payments are past due over 365 days.
- v. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
 - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
 - (iii) Default or delinquency in interest or principal repayments.
- vi. The Group classifies customer's accounts receivable and contract assets in accordance with credit risk on trade. The Group applies the modified approach using the provision matrix based on the loss rate methodology to estimate expected credit loss.

- vii. The Group writes off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.
- viii. The Group's notes receivable had no significant loss allowance. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable and contract assets. On September 30, 2023, December 31, 2022 and September 30, 2022, the provision matrix and loss rate methodology is as follows:
